2009 MUNICIPAL ELECTION RESULTS

We would like to thank all the 2009 Municipal Candidates for a great election year!

Congratulations to Randy Farnworth who has been elected to continue to serve as Mayor for the Town of Vineyard and to Norm Holdaway who has been re-elected to serve on the Vineyard Town Council. Congratulations and a special welcome to Jeff Gillespie who was also elected to serve on the Vineyard Town Council.

UPDATED ZONING MAP

Within the last six months, the Town Council adopted a new Zoning Map for the Town of Vineyard.

The changes primarily affect the Anderson Geneva property. The changes include rezoning part of the property from the I-1 Industrial Zone to Light Manufacturing, Business Park, Regional Mixed Use, Transit Center, Lake Oriented Mixed Use, and High Density Residential.

All residents are encouraged to visit the town hall to see the changes to the zoning map or by visiting www.vineyard.utah.gov.

Not what we say about our blessings, but how we use them, is the true measure of our thanksgiving.

~W.T. Purkiser

PARK CLOSED FOR WINTER

The bathrooms and west parking lot in the J Rulon Gammon Park are now closed for the winter. Pavilion reservations are no longer available throughout the winter, but can be made for events scheduled for April 1, 2010 or later.

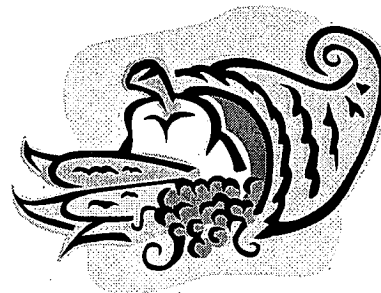

Town hall reservations are available throughout the winter. Please remember that all reservations need to be made at least seven days in advanced.

TOWN OFFICES CLOSED

The Vineyard Town offices will be closed November 26th and 27th for the Thanksgiving Holiday.

Happy Thanksgiving!

H1N1 VACCINATIONS

(From the official Utah County Website)

The Utah County Health Department has implemented a reservation ticket process to receive H1N1 vaccine. Adults can get up to six tickets for immediate family members. Vaccinations will continue to be given only at the Health and Justice Building in Provo. Everyone seeking vaccination needs to have a ticket, and needs to report at the time and day indicated.

We are still asking that only individuals in the Centers for Disease Control and Prevention's priority groups seek vaccination at this time. These groups include:

- Pregnant women
- People who live with or care for children younger than 6 months of age
- Health care or emergency medical personnel with patient contact
- Children age 6 months to young adults 24 years of age
- Persons 64 years of age and under with chronic medical conditions associated with higher risk of medical problems from influenza

If you do not belong to one of these priority groups, please be assured we will have enough vaccine for everyone at a later date. We wish to vaccinate those at highest risk first. Please check back at 801-851-2222, check our web site at www.UtahCountyHealth.org, or call United Way's 2-1-1 information line for vaccine availability updates.

Children that have received one dose of the H1N1 vaccine should receive a second dose -- or "booster" -- at least 28 days after the first vaccination.

H1N1 Vaccinations Continued...

Although it should be given as soon as possible, the booster can be given as much as a couple of months later if vaccine isn't available.

The Utah County Health Department (UCHD) will administer these booster vaccinations with the other H1N1 vaccinations in our clinic. At this time, a separate clinic will not be held, but parents should get a reservation ticket for children when they are available.

Residents are encouraged to check the UCHD web site (www.UtahCountyHealth.org), to call the UCHD Hot Line at 801-851-2222 or to call United Way's 2-1-1 Information Line for vaccine availability updates. You may also receive updates by following the UCHD at Twitter or be a fan on FaceBook.

2010 CENSUS IS COMING!!

The census is a count of everyone residing in the United States: in all 50 states, the District of Columbia, Puerto Rico and the Island Areas. All residents of the United States must be counted. This includes people of all ages, races, ethnic groups, citizens and non-citizens.

Census questionnaires will be mailed or delivered to every household in the United States in March 2010. The questions ask you to provide information that is accurate for your household as of April 1, 2010.

The U.S. Constitution (Article I, Section 2) mandates a headcount of everyone residing in the United States. The population totals determine each state's Congressional representation. The numbers also affect funding in your community and help inform decision makers about how your community is changing.
